

Want a tank like this?

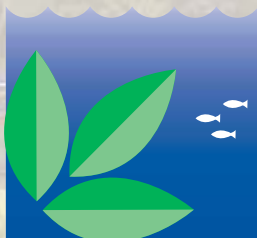

Come join us!

The **New England Aquatic Plant Society** is looking for members. NEAPS is a local group of hobbyists and plant nuts interested in furthering the hobby, sharing ideas, trading plants and helping one another get beautiful tanks like these.

There is much work to do to get this group started but the most important part is you. Members are needed- so whether you are a beginning aquarist interested in aquatic plants, or an experienced aquascaper, please come join us.
