

Dear friend,

This directory is intended to be an empowerment tool for everyone concerned about HIV. Whether you have HIV or have a friend or family member with HIV, this directory will help you access the services available in the Chicago area. To make the most of this directory, please read over the instructions on page 3. This publication is also available online at: www.tpan.com.

The Services Directory is the product of many strenuous hours of work. After hundreds of faxes, phone calls and follow-ups, we've compiled and designed this publication to be simple and easy to use. As a self-help tool, its purpose is to help you educate yourself about the many HIV and AIDS resources in the Chicagoland area.

The 409 organizations included in the following pages have kindly provided us with current information about their services. Unfortunately, given limited time and resources, we were unable to list organizations who did not respond to our multiple requests for current information, nor did we list organizations who had incomplete contact information. Of course, if you have any corrections, additions, or would like to be included in next year's directory, please fax the information to Test Positive Aware Network (TPAN) at (773) 404-1040, or e-mail it to us at: tpanet@aol.com.

For the past eight years the Services Directory has continued to evolve and reflect the changing face of HIV in our community. As individuals are living longer, healthier lives, there are new issues and challenges to be faced. Using the services listed in this directory will assist you in navigating these physical and social challenges and keep you moving forward.

Many individuals have given of themselves and their talents to make this directory a reality. I'd like to thank a special group of individuals whose time and efforts helped in so many ways: Rick Bejlovec, Jeff Berry, Ann Sanders, Sylvia Vazquez, Angelo Datellis, Dennis Hartke, Patrick Rybarczyk, Brian Robbins, John Auterman and Russell McGonagle at apparatus and TPAN staff and volunteers. Their laughter and support kept both me and this project on track!

With warm regards,

A handwritten signature in cursive script that reads "Katy Flores".

Committed to Living

Whether you have lived with HIV for many years (15 years for myself), just recently found out you are positive, or are trying to decide if you should be tested for HIV, this directory will help you. Today, as never before, the prospects are good for a long, productive life with HIV, but only if you are knowledgeable about HIV and the many services available to you.

This publication can assist you in gaining that knowledge. This directory is made possible through the generous support of the Chicago Department of Public Health with funding they receive from the federal Ryan White CARE Act.

Have you been dealing with HIV for a while? Consider looking at the **Alternative Therapies, Clinical Trials, Financial Assistance, or Volunteers** sections. Just recently tested positive? Then consider looking at the **Case Management, Mental Health and Emotional Support, Education Programs and Public Assistance & Entitlements** sections. Wondering if you should test? Look at the **Testing and Counseling Sites and Mental Health and Emotional Support** sections. Use this directory not only to identify providers of services you want or need, but also as an educational tool. By reviewing the contents of this publication you will become knowledgeable of the many services that are available to you, many of which are offered free of charge or on a sliding scale basis.

Gathering the information contained here is no easy task. This year's editor, Katy Flores, has spent hundreds of hours writing, faxing and calling repeatedly to try to make the information as complete and correct as possible. In just a few months she learned this job and completed the process as smoothly as it has ever been done. I thank her for making sure the production of this year's directory was not an issue for me!

Use this directory to help you (or a friend or loved one) *live* with HIV. Share this information with a friend or have them pick up a directory themselves. Increasing your knowledge of HIV and the many services available to you is the first step in self-empowerment.

Please, remain (or become) "Committed to Living."

Sincerely,

Dennis Hartke

Dennis Hartke
Executive Director, TPAN

How to use this directory

This directory is designed for anyone who needs to find resources and services in the Chicago area that serve those who are impacted by HIV/AIDS.

This directory is divided into two (2) sections: The first is a listing by service category, the second is an alphabetical listing by agency name.

Section I – Listing by service type

The first section is a listing of the 25 different service categories which are available in the Chicagoland area, such as Alternative Health, Case Management, Dental Care, etc. Each service category section begins with a general description of the service; below each description is a listing of all agencies which provide the service. This listing is organized by geographic location in the Chicagoland area. For example, an individual looking for services on Chicago's North Side can look in the "Chicago North Side" section and find a list of agencies located in that area which provide those services. The listing also contains information such as the phone number, the neighborhood the agency is located in, a legend code describing fee structure, population served, a "Yes" or "No" indicator as to whether the agency is handicap accessible, and the page number for the complete agency description in Section II.

A person looking for an organization which provides HIV/AIDS information would be able to call Test Positive Aware Network (TPAN) at the phone number given. The "*" indicates that the organization receives funds through the Ryan White CARE Act. The next line indicates TPAN is located in the Lakeview neighborhood. The legend code for services include "B", indicating services and materials can be found in English and Spanish, "F" for free services, and "X" for all populations served. The word "Yes" indicates that the organization is handicap accessible. Finally, the "109" indicates that the complete agency description is available on page 109 in the alphabetical agency listing.

"Information" as an example:

Agency	Phone	Neighborhood	Legend	Handicap	Page
CHICAGO NORTH SIDE					
Test Positive Aware Network (TPAN)*	(773) 404-8726	Lakeview	B,F,X	Yes	109

Legend of services

A "legend" is a reference tool that provides much of the descriptive information in a small space. As shown in the example above, a series of letters is used to describe the services available at TPAN such as materials available in English and Spanish, fees for services, and target populations. Legend descriptions will appear frequently throughout the directory to help provide service information. Below is the legend of services appearing in the directory.

LEGEND							
Languages:			Population:				
E = English	S = Spanish	B = Bilingual	W = Women only	M = Men only			
			C = Children (ages 0-12)	T = (13-19 yrs.)			
			X = All populations	V = Veterans			
Fees:			H = HIV diagnosis only	A = AIDS diagnosis only			
F = Free	L = Sliding scale	D = Set fee					
I = Private insurance only		P = Public aid accepted					
* = Receives Ryan White CARE Act funding							

How to use this directory, cont.

Section II – Listing by agency name

The second section is an alphabetical listing of each agency which provides all contact information and the location of the agency, as well as a full profile of agency/service descriptions.

An “*” means that the organization is funded through the Ryan White CARE Act and may have services at reduced or no cost.

The design of this directory will help individuals to find the services they need quickly and easily.

Example:

Test Positive Aware Network (TPAN)*

ADDRESS: 1258 W. Belmont Ave.

Chicago IL 60657

PHONE: (773) 404-8726

FAX: (773) 404-1040

E-MAIL: tpanet@aol.com

WEBSITE: www.tpan.com

SERVES: Metro Chicago/National

Self-help organization with resources, referrals & numerous support groups for people living with HIV and impacted by HIV. Peer led support/buddy programs, HIV-related legal clinic, medical clinic, yoga, bi-monthly journal *Positively Aware*, bi-monthly local newsletter *TPAN Now*, free *Chicago Area HIV Services Directory*, resource center. Call for additional information and group times.

What are Ryan White CARE Act services?

On August 18, 1990, the Ryan White Comprehensive AIDS Resources Emergency (CARE) Act was signed into law by Congress in order to provide emergency relief moneys for people living with HIV and AIDS. The CARE Act was named after Ryan White, the Indiana teen who fought a courageous battle not only with AIDS, but against discrimination towards people living with HIV/AIDS. Title I of the CARE Act provides funding for jurisdictions with more than 2,000 reported cases of AIDS. Chicago and the collar counties (known as the Eligible Metropolitan Area, or EMA) consisting of Cook, DuPage, Lake, McHenry, Kane, Kendall, Grundy and Kankakee counties, comprises one of 25 such jurisdiction across the country.

Many of the available services listed in this directory are funded by the Ryan White CARE Act. These services include, but are not limited to, primary health and mental healthcare, and case management services to persons living with HIV/AIDS. **Service providers who are funded by Ryan White CARE Act grant money appear with an “*” by their agency name.** These organizations are funded by the U.S. Health Resources and Services Administration through the Chicago Department of Public Health, in order to provide services that specifically address the pressing healthcare needs of persons living with HIV and AIDS.

Grievance procedure

If for any reason an individual is not satisfied with any services they are receiving, they can submit a grievance. Every organization listed in this directory should have a set of grievance procedures in place. There is also a grievance procedure for Ryan White Title I funded services. Clients that have a grievance concerning Ryan White Title I funded HIV services have the right to contact:

The Client Advocacy Project through the HIV Positive Action Coalition (HIV PAC)
5250 North Broadway, PMB 123
Chicago, IL 60640
Phone: (312) 409-5228
e-mail: HIVPAC123@aol.com

Alternative Therapies

Alternative therapy, also known as complementary therapy, refers to any type of healing which is not considered part of Western Medicine. Alternative therapies include, but are not limited to, yoga, imagery, T'ai Chi, Reiki, acupuncture, homeopathy, chiropractic care, herbal therapy, massage and macrobiotics. It is recommended to consult a primary healthcare provider when considering any new therapies.

Note: Some organizations serve outside of the area they are listed under. See agency listing in Section 2 for service area.

Case Management

A case manager is an assigned professional who can assist you in managing the complexities of living with HIV. Case managers can offer assistance in obtaining information about accessing specific services such as:

- Public aid programs, Social Security programs, Veterans benefits
- Support groups for you and your friends, partners and family members
- Special monies, rent subsidies, and financial assistance for outstanding bills
- In-home services for disabled individuals living with HIV or AIDS who need help with meal preparation, laundry, shopping, bathing, etc.
- Medical services and home health services
- Food and nutrition programs
- Legal services
- Housing options
- Alternative therapies
- Substance abuse programs
- Transportation

The case manager ensures that the services contracted are in place and continue to meet the client's needs.

Note: Some organizations serve outside of the area they are listed under. See agency listing in Section 2 for service area.

Financial Assistance

Many organizations have programs to assist people living with HIV/AIDS through financial crisis, including short-term problems. Many people with HIV/AIDS are also eligible for assistance through government entitlement programs such as Social Security.

This section of the directory lists agencies which provide direct financial assistance to individuals living with HIV or AIDS.

Note: Some organizations serve outside of the area they are listed under. See agency listing in Section 2 for service area.

Foster Care

Foster care means entrusting your child to the care of either a designated family member or a suitable family provided by one of the agencies listed below. Foster care is not permanent like adoption. Seek out professional counsel and choose the best child care option that suits your personal situation.

Note: Some organizations serve outside of the area they are listed under. See agency listing in Section 2 for service area.

Home Healthcare

In recent years, home healthcare has emerged as a more desirable healthcare option than long-term hospitalization. Although the intensity of treatment will determine if home care is an option, there are many benefits to medical care in your home. These services are usually accessed through a physician referral. However, any home care agency should be able to inform you of their "intake" procedure and a full list of services they provide.

Note: Some organizations serve outside of the area they are listed under. See agency listing in Section 2 for service area.

Hospice

Hospice care can be provided in a hospital-like setting as well as in a facility that provides a home-like atmosphere. Some organizations can provide hospice services in your own home if desired. The services provided by a team of physicians, nurses, social workers and clergy are directly connected to the hospice philosophy:

- To maximize day-to-day quality of life through symptom control and pain management
- To assist toward a natural and peaceful death
- To involve one's lover/spouse, family, and/or friends as primary care-givers
- To avoid aggressive, painful or difficult measures to prolong life
- To provide spiritual guidance and explore death issues if desired
- To provide bereavement counseling for those left behind

The agencies below can assist you in further exploring this philosophy and related issues/options.

Note: Some organizations serve outside of the area they are listed under. See agency listing in Section 2 for service area.

Hospitals

If you have a primary care physician, you may want to check with him/her to see which hospital he/she is affiliated with. You may also want to check with your health insurance company, if applicable, to see if there are any hospitals that work directly with your company. Unfortunately, many people who are HIV positive do not have insurance and must seek medical services at public hospitals. This can, but does not have to, limit an individual's healthcare options.

You may also want to talk to people who have been hospitalized about their experiences. For many individuals, choosing the right hospital is as important as choosing the right physician.

Note: Some organizations serve outside of the area they are listed under. See agency listing in Section 2 for service area.

Housing Placement

Housing placement can include: Specialized housing advocates, emergency shelter, transitional housing, permanent housing, rent subsidy programs and assisted living. Individuals can find these options with the following agencies. Many times a case manager is needed to assist in this process (see page 8 for case management services).

Note: Some organizations serve outside of the area they are listed under. See agency listing in Section 2 for service area.

Legal Assistance and Advocacy

An individual may seek legal assistance with the interpretation of insurance policies, making wills or power of attorney for healthcare or property, filing for bankruptcy, or setting up a guardianship for your child.

You may also seek help with federal, state and local laws that protect individuals with HIV from discrimination. These include the Americans with Disabilities Act, which prohibits discrimination in the workplace; the Fair Housing Act, which protects you from housing discrimination; and the Human Rights Ordinance, which protects you from discrimination.

The following agencies offer a variety of these services, please check with the listing to verify the specific services they offer.

Note: Some organizations serve outside of the area they are listed under. See agency listing in Section 2 for service area.

Pastoral and Spiritual Support

When people are faced with a life crisis or an unexpected change, they often feel the need to establish a spiritual dimension to their lives, or to strengthen old spiritual or religious beliefs. An HIV/AIDS diagnosis may spark such a desire; the service providers listed below can assist in a search for spiritual support for you or a loved one.

Note: Some organizations serve outside of the area they are listed under. See agency listing in Section 2 for service area.

Public Assistance and Entitlements

There are many benefits that an individual with HIV may be entitled to. These may range from state run insurance programs to supplemental food programs. The following agencies offer various programs, please call for specific programming. A case manager may be able to assist in finding the appropriate programs for you (refer to page 8 for a case manager).

Note: Some organizations serve outside of the area they are listed under. See agency listing in Section 2 for service area.

Testing and Counseling Sites

HIV testing can be conducted in two different manners, anonymous or confidential.

Anonymous testing means that the site has no way of knowing an individual's true identity.

Confidential testing means the site conducting the test knows the individual's identify but agrees to limit disclosure.

In Illinois, health departments will test adolescents age 12 and above; those under 12 need parental consent.

Following are testing sites that may or may not require payment for testing, please check the legend for your options.

Note: Some organizations serve outside of the area they are listed under. See agency listing in Section 2 for service area.

Volunteers: Assistance and Opportunities

Volunteer services can provide two functions for people impacted by HIV. The first provides emotional or practical support to HIV-positive individuals. The second is for the HIV-positive individual doing volunteer work. See the list of agencies below to find an opportunity that best suits your wants and needs.

Note: Some organizations serve outside of the area they are listed under. See agency listing in Section 2 for service area.
