Dear New GSAS Member,

As the president of the board, I would like to welcome you to the Greater Seattle Aquarium Society! The club is a great way to connect with fellow hobbyists in the region and share ideas. We offer the following resources:

GSAS.org: Our website is the gateway to schedules, directions, and events. Please visit and explore!

Monthly Meeting: For the months of September through June we meet on the second Tuesday of each month at Weter Hall on the Seattle Pacific University in North Queen Anne. We have a party in December and a picnic in the summer.

Member Chat: The gsas-member list is for discussions amongst GSAS members. If you have a problem, a question, or something to sell this is a great place to start.

Auctions: The club holds two major auctions. Aquatic plants and fish in February and everything in April. We have a small auctions after meetings to support our Award Programs (except December). Auctions are an excellent way to acquire locally raised livestock and see rare/hard to find fish. Members receive a 60% split at the big auctions and the option of a 50% spit at meetings.

Library: Our small library holds a number of books on every aquarium topic arranged by subject. Members are encouraged to browse and check out items.

Discounts: Your current membership card is valid for discounts at a number of stores in the region. Several stores are listed on the back of your card with additional opportunities listed at GSAS.org.

Welcome to GSAS!

Paul Wallace
